

## **Direct Action Education: Cambodian Wild Elephant Conservation Materials— Cambodia**

Education is key to wildlife conservation, and the Cambodian Wild Elephant Conservation project will build on several years of elephant-themed education and outreach through the Kouprey Express mobile unit, focusing on protecting the elephants of the Southwest Elephant Corridor (SWEC) in the Southern Cardamom Mountains. An elephant conservation board game aimed at children will be produced by the Wildlife Alliance and distributed to rural communities in and around the South West Elephant Corridor.
